8c	Dermatologist Avatar	Dermatologist listing page	160 × 160	Square (1:1)	Per doctor	Small circular avatar photo

⚠ Important Design Rules

Rule	Details
Safe Zone	Keep all important content (faces, text, logos) within the center 80% of the image. The outer 10% on each side may get cropped on some screen sizes
Centering	All images are auto-centered on the website. The image fills the container and crops equally from all sides if needed
Resolution	All sizes above are 2× Retina ready . Do NOT deliver smaller sizes — these are final export sizes
File Format	WebP preferred (smallest file size). JPG also accepted. Use PNG only if transparency is needed
File Size	Keep each image under 200 KB for banners, under 100 KB for cards. Compress using TinyPNG or Squoosh
Color Mode	sRGB color profile. Do not use CMYK
Naming Convention	section-name_descriptor.webp — Example: hero_valentines-sale.webp, product_neem-face-wash.webp

Visual Reference: Where Each Image Goes

Questions? Reach out before starting. When in doubt, always **center the subject** and **leave breathing room** around edges.
